

MRPL WORK PERMIT WP-2030-0912

1. Scope

Hot work permit for welding repair on the heat drain nozzle of vessel V-1202 in the Crude Distillation Unit. Issued 2030-02-11, valid for one shift only.

2. Isolation

Vessel isolated by HV-1212 and XV-1214, both can-sealed closed. Confirmed zero flow on FI-1212. Vessel purged with nitrogen to below 1 percent LEL. Purge duration 45 minutes at 3 barg.

3. Gas Test

Initial gas test 0.3 percent LEL at 07:20. Oxygen 20.9 percent. Repeat required every two hours. Hydrogen sulphide not detected.

4. Authorisation

Issued by: S. Nair, Senior Inspection Engineer. Approved by: M. Devadiga, Maintenance Head. Fire watch: R. Karanth.
